TRADITION AND MODERNITY IN HARMONY

The **Onyxia Barrel** is an outdoor sauna that combines tradition and modernity, ideal for an authentic and immersive experience. **Designed in ThermoWood wood®** for exceptional durability, it is distinguished by its elegant black finish and **its half-moon window** offering panoramic views. Its spacious interior includes **two deep benches facing each other**, perfect for moments of relaxation. To be equipped according to your wishes, it is possible to install either an electric or wood-burning stove.

Enjoy the panorama

LED strip

TERRACE

Enjoy a space for relaxation breaks during your wellness sessions.

FOR EVEN MORE AUTHENTICITY

Possibility of installing a wood-burning stove. This installation will require a cutout in the upper part of the sauna.

? ZOOM ON THERMOWOOD WOOD®

The **ThermoWood®** is a high-temperature treated wood, providing durability, strength and stability. This **natural process without chemicals** reduces its humidity and protects it from climatic variations, **humidity and insects**. Ideal for outdoors, it combines **warm aesthetics and longevity**, perfect for high-end saunas.
